Read:-

Board's Ref.L.2523 /47-3 dated 30-10-47.

---

O R D E R:

In connection with the acquisition of certain ceramic minerals occurring in mica mines required for Government purposes, the Board of Revenue has suggested that;

(i) the industries department should be allowed by the Mica mine lessees to remove felspar, quartz and other ceramic minerals from the debris for Government purpose.

(ii) the lessees should be asked to sort the minerals and offer them for sale to Government for a reasonable price to cover the cost of collection and working. The Government approve the proposal.

2. The Board is requested to submit necessary draft amendments to the Madras Mining Manual referred to in para 4 of the reference cited above.
